INDOOR PLANT SELECTION

LYGON STREET NURSERY ©

Indoor Plant Selection

Lygon Street
Nursery

135 Lygon St.
Brunswick East
VIC 3057

Ph. (03) 8388 7245
Fax: (03) 8677 1755
E. info@lygonstnursery.com

PLANTS

- a Schefflera amate
- B Spathiphyllum sp. (small)
- c Monstera deliciosa (Medium)

consider:

- Be mindful of how close the plant will be to the window and how much direct sun the plant will get
- Positioning plants out of the way of air conditioning and central heating
- Using plant stands to add height differences and visual interest

A

B

C

D

PLANTS

- a Ficus elastica ‘Burgandy’
- B Hedera canariensis (Ivy) (low light) or Hoya sp. (low light)
- c Sanseveria sp.
- D Spathiphyllum sp. (small)

consider:

- Hanging plants away from heat and preparation area
- Utilising dead space
- Using Plant stands to add height differences and visual interest

E

PLANTS

- a Devils Ivy
- B Strelitzia nicholaii
- c Calathea sp.
- D Hedera canariensis (Ivy) (low light) or Hoya sp. (low light)
- E Sanseveria sp.

consider:

- Practicalities of having hanging plants in the kitchen
- Utilising dead space
- Using Plant stands to add height differences and visual interest
- Areas of less natural light and high up (how often and how will you water)
